### **REACH- declaration of Hanns Eggen GmbH & Co. KG** **Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)**

Dear Sirs,

As is generally known the regulation 1907/2006/EG (REACH) came into effect as of 1st June 2007. According to our rule to strictly adhere to legal regulations Hanns Eggen GmbH & Co. KG is obliged to fulfill the REACH-requirements.

REACH makes several provisions for substances in articles (contrary to chemical substances respectively preparations as such), beneath others the obligation to inform successive users about a special, hazardous substance being listed in the so-called "list of candidates" (substance of very high concern - SVHC), in case it is contained in an article.

The current version of the list of candidates was published by the European Chemicals Agency (ECHA) on **15th January 2019**.

The articles supplied by Hanns Eggen according to todays' state of technique do not contain substances in a concentration above 0.1% by weight (Legal reference: REACH Regulation (CE) 1907/2006, Article 33), which are listed in the prevailing list of candidates.

Best regards

Dr. Markus Wloka  
Laboratory head
