

Product - Information

Hacodamp 399

Product - Information:	Universal Fountain solution for coldset printing.
Application:	All coldset dampening systems.
Dosage:	2-2,5 %
Properties:	This fountain solution has been developed specially for the contactless dampeningsystems used in coldset printing. It is low foaming, weel protected against biogrowth and contains the by Fogra required corrosion inhibition. A mixture of effective surfactants allows a low dosage without deterioratring ink water stability and fast clean-up.
pH - value:	4,8 tot 5,2 depending on water hardness.
Conductivity:	ca 500 uS per % dosage.
Colour:	Colourless till light yelloxish
Specific density :	1,1 kg/l
Flashpointt:	> 100 °C
Storage:	Standard storage conditions. Maximum storage temperature 35 °C. Avoid direct sunlight during storage. Use within 6 months.
Packing :	200 kg, 600 kg, 1000 kg
Remarks:	None
